SUMMARY

- Overall 1.8+ years of experienceas as a Software Developer. Rich experience in web development and cloud technologies.
- Currently working at PlanSource India, Bengaluru (Oct. 2022 - Present).
- Excellent understanding of Object Oriented Programming and Solid Principles.
- Experience in Test driven development using RSpec/Minitest to improve code quality.
- Experience in working with agile scrum framework.

EXPERIENCE

- **PlanSource**   Bengaluru, India
  Associate Software Engineer   *Aug. 2023 - Present*
    - **Tensorflow**: TensorFlow is an open source software library for numerical computation using data flow graphs; primarily used for training deep learning models. Worked on APIs and performance for training models on Tensor Processing Units (TPU).
    - **Apache Beam**: Apache Beam is a unified model for defining both batch and streaming data-parallel processing pipelines, as well as a set of language-specific SDKs for constructing pipelines and runners.

- **MountBlue Technologies**   Bengaluru, India
  Software Development Engineer   *Aug. 2022 - July. 2023*
    - **Tensorflow**: TensorFlow is an open source software library for numerical computation using data flow graphs; primarily used for training deep learning models. Worked on APIs and performance for training models on Tensor Processing Units (TPU).
    - **Apache Beam**: Apache Beam is a unified model for defining both batch and streaming data-parallel processing pipelines, as well as a set of language-specific SDKs for constructing pipelines and runners.

EDUCATION

- **College of Engineering Roorkee**   Roorkee, India
  Bachelor of Technology in Computer Science and Engineering; Percentage: 67.30   *July. 2014 – June. 2018*

- **Doon International School**   Dehradun, India
  XII CBSE; Percentage: 84.60   *April. 2012 – May. 2013*

- **Kendriya Vidyalaya I.T.B.P. Gauchar**   Gauchar, India
  X CBSE; CGPA: 9.2   *April. 2010 – May. 2011*

PROJECTS

- **Instagram Clone**: Instagram clone web app. having features to follow other users and see their posts; and like and comment on them.
- **Flight Booking web app**: Flight booking app where a admin can create flight schedules and users can book flights for themselves.
- **Fundraiser website frontend**: Fundraiser website where users can see the goals of the organization and can donate for the cause. Implemented just the frontend to learn UI of a website.
- **Residents' Records android app**: Java based android app which uses sqlite db to store the details of patients/residents of any instiution like hospital or old age homes. Aim was to help the assitants in better managing the needs of the patients.

PROGRAMMING SKILLS

- **Languages**: Ruby, Javascript, Java, Python, SQL   **Technologies**: MVC framework, AWS, Redis, React, jQuery
